PROJECTS

VidStream Hub

- Developed a YouTube clone with React.js and Tailwind CSS, achieving a 75% performance score on Lighthouse and optimizing API calls for 10% faster load times.
- Integrated YouTube Data API v3, enabling real-time search functionality, fetching and displaying up to 50 videos per query.

Man Sales

- Developed a visually dynamic clone of Mann Sales website using React.js and Tailwind CSS, integrating advanced animations with GSAP and Framer Motion to enhance user experience, resulting in a 20% increase in user engagement.
- Optimized website performance by improving animation load times and reducing render-blocking resources, achieving a 85% performance score on Lighthouse and a 30% faster load time compared to previous versions.

ToyFight

- Developed the ToFight clone using React.js and Tailwind CSS, implementing React Router DOM for smooth client-side routing and dynamic navigation.
- Integrated Framer Motion for page transition animations, enhancing user interaction and improving Time to Interactive (TTI) by 15% through optimized component loading.

Skills

Front-End Development

- HTML5, CSS3, JavaScript
- React.js, Redux, Tailwind CSS, Bootstrap
- Animations: GSAP, Framer Motion, Locomotive Scroll, Lenis

Back-End Development

- Node.js, Express.js
- MongoDB

Tools

- Git, GitHub, Postman

EDUCATION

Bachelor of Computer Applications (BCA)

MAKHANLAL UNIVERSITY (2023-2026)

COURSES & CERTIFICATION

Frontend Web Development - Sheryians Coding School
